The course is scheduled for one week **from 17<sup>th</sup> to 21<sup>st</sup>** March 2025 in Tanga, Tanzania.

This is tailor-made training for the Health Sector in Tanzania. The training is designed for all officials and Monitoring and Evaluation champions

## **About the Course**

This is tailor-made training for the **Health Sector in Tanzania**. The training is designed for all officials and monitoring and evaluation champions, who supervise, manage, plan, and implement health projects, strategic plans, policies and programmes in Tanzania.

This training is meant for Health Sector staff to strengthen their **M&E** capacity, conduct readiness assessments, and develop their Monitoring, Evaluation and Learning plans, Results frameworks and **Monitoring, Evaluation and Learning (MEL)** operational manuals as instructed by the Prime Minister's Office (PMO).

The course will cover all the aspects of MEL and the operationalization of the MEL activities. The experienced facilitators will use practical examples such as medium-term expenditure frameworks (MTEFs), project documents, and strategic plans to demonstrate how MEL is practiced in the real world. Various national M&E guidelines will be referred to in the training.

The training will be delivered by the **Ministry of Health (MoH)**, **President's Office** - **Regional Administration and Local Government (PORALG)** in partnership with **Open University of Tanzania (OUT)** and **RM Consulting** facilitators with extensive participatory field experience. This training will enable the participants to bring the learning into practice and thoroughly understand what the MEL activities entail and the difference between data, information, and knowledge, which is a key aspect of ensuring strategic decision-making.
